SUMMARY

MERN Stack Developer and B.Sc. Computer Science graduate with hands-on experience developing responsive and scalable web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in RESTful API development, JWT authentication, Redux Toolkit, responsive UI development, and Git-based collaboration. Seeking a MERN Stack Developer role to contribute to scalable and user-focused web applications.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Database: MongoDB, SQLite

Tools: Git, GitHub, VS Code, Postman

Languages: English (Professional Working Proficiency), Malayalam (Native)

EXPERIENCE

Full-Stack Development Intern

SMEC Technologies | June 2026 - Present

- Developed full-stack web applications using React.js, Node.js, and Express.js with RESTful API integration.
- Implemented secure authentication and authorization using JWT and middleware for protected routes.
- Managed application state using Redux Toolkit, improving data handling and UI consistency.
- Built responsive user interfaces using Tailwind CSS, HTML5, and CSS3 for a seamless user experience.
- Implemented error handling and tested APIs using Thunder Client to ensure reliable backend performance.

Full-Stack Developer Intern

BAIRUHATECH LLP | Aug 2025 – Feb 2026

- Developed responsive web applications using React.js, focusing on reusable components and user-friendly interfaces.
- Collaborated with developers using Git and GitHub for version control and team-based development.
- Optimized application performance and loading speed to improve overall user experience.
- Assisted in implementing and improving frontend features based on project requirements.

PROJECTS

Portfolio Website

Technologies: HTML5, CSS3, JavaScript

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, and professional information.
- Implemented responsive layouts to ensure compatibility across desktop, tablet, and mobile devices.
- Developed a clean and user-friendly interface with a focus on usability and smooth navigation.

Aquaflow – Panchayath Water Supply Management System

Technologies: HTML5, CSS3, JavaScript, Python, Flutter, Dart, SQLite

- Developed a water supply management system as a final-year B.Sc. Computer Science project.
- Designed and implemented an application interface for managing user information and water distribution records.
- Integrated **SQLite** for storing and managing application data.
- Built a functional and user-friendly system with frontend and backend integration.
- Implemented responsive and intuitive interfaces using **Flutter and Dart**.

EDUCATION

BSc Computer Science

Little Flower Institute of Social Sciences and Health | University of Calicut | 2022-2025

CERTIFICATIONS

Certified Cyber Security Analyst (CCSA) | 2023

RedTeam Hacker Academy

Training in cybersecurity, penetration testing, SOC operations, and SIEM systems

Artificial Intelligence | 2025

UL Research & OSPF

Certified in AI fundamentals, machine learning concepts, and implementation strategies
